The level of performances was really high, higher than on Global Games and World Championship in Australia last year. It is maybe the reason why other countries and their teams do not want to participate in those events.

Polish organizers prepared for next year Tennis sport Camp (July 1 – 7, 2006) to Glogow, Poland, just before 2<sup>nd</sup> INAS-FID World Tennis Championship, which will be held in the same town – Glogow on July 8 – 13, 2006.

We are ready to prepare “Category for beginners” so that we can welcome new players from other countries, where tennis is played – France, UK, Hungary, Germany, Japan, Portugal, etc. and their teams have no courage to participate in international level.
